

# Our Lady's Grove Secondary School

## About the school:

Welcome to Our Lady's Grove, a school where we pursue excellence in a familial environment. Our students are encouraged to strive to attain their goals in an academic atmosphere which is supportive, encouraging, forgiving and patient. All our students are facilitated in their learning by our excellent and dedicated staff with the aim of reaching their optimum potential. In addition, through our partnership with parents we work to ensure a totally supportive educational experience for our students.

Our Ethos, as a Le Cheile Trust school, ensures an integrated education, where each individual is valued and opportunities are provided to build on strengths and develop a positive self-image, together with a strong moral compass. Primary values transmitted are courtesy, manners and respect. We also promote equality and the empowerment of young women. These values are fundamental to the world of today and open to the perspectives of tomorrow.
