

## About the school:

Rockford Manor is a non fee-paying Secondary School for girls which differentiates itself from other schools by catering for a wide range of social categories within the Catholic ethos of the Presentation Congregation. We are located in Blackrock, 15 minutes from the dart station and are lucky to have direct links to many bus services. Many of our students come from the surrounding areas and many more travel on the dart from Malahide to Greystones.

The size of the school is unique in its catchment area enabling it to provide education of the highest quality in an intimate and caring environment where there is an emphasis on individuality and personal contact and affirmation. In the school there a focus on achievement and in this climate of excellence, improvement and success are not only rewarded, but celebrated.

Our girls become part of the Rockford Manor family when they walk through our doors. We pride ourselves on our family spirit - among our teachers, auxiliary staff, students and all our school community.
