

About the school:

St. Mary's School in Baldoyle will be a co-ed school from 2024 on. As the school embarks on a transformative journey, it remains focused and committed to nurturing, not only the academic excellence and learning environment of students, but also their character, compassion and community spirit.

Our Pastoral Care structure is dedicated to the needs of each student. Each class has a Form Teacher, who pays particular attention to that group. Each year has a Year Head, who looks after the needs of all the classes within a particular year. The Guidance Counsellor is available to all students. Our Learning Support teachers assist students who experience learning difficulties. There are also two Care Teams to support students who are experiencing difficulty.
